## // SKILLS

Be Active

---

Willing to Learn new Thing

---

Logical thinking and creative

---

Public Speaking

---

## // INTERESTS

Learning code and new techonology especially  
Java Script

Listening Music

Build Web-App

Linux Operating System

Learning Vim

## // ADDITIONAL INFORMATION

I can code with HTML,CSS,  
Javascript,TypeScript  
&ES6,Jquery,C++,JavaWeb, React-Native, Swift  
and I also try to build some web-app by  
NodeJs, React-Redux and app React Native.  
Moreover, i have a knowledge the way  
approaching with non-sql(MySql) and sql  
databases(MongoDB).

I also have a lot experience with React  
Libraries and some technique with React like  
as: HOC, Hooks, recompose Library, Saga,  
selector, ....

With IOS, i studied by my self. SO ifamiliar  
with some technique: AutoLayout, GCD,  
LifeCycle in IOS, call api, ...

I Worked over Two Projects one is  
jccapital/funxeed it is the application web  
relevant to stock and economic, second is  
Health Curation application it is the health  
app. And i have 1 month internship in IOT-  
LINK company, this team are building an IOT  
Map for Da Nang and Saigon
